Company Overview

A World Leader in Specialty Coatings and Sealants

RPM International, Inc., founded in 1947, is a multinational holding company with an entrepreneurial operating philosophy structured into subsidiaries that manufacture and market various specialty chemical brands and product lines. TCI Powder Coatings is a subsidiary of RPM.

Products include high-quality specialty paints, protective coatings, roofing systems, sealants, and adhesives for the maintenance and improvement needs of industrial and consumer markets. Fiscal 2015 net sales were \$4.6 billion, mainly in North America.

Industrial and Specialty brands include Stonhard, Tremco, illbruck, Carboline, TCI Powder Coatings, Flowcrete, Universal Sealants, Euco, DayGlo, and Dryvit. Industrial and specialty products include roofing systems, sealants, corrosion control coatings, polymer flooring systems, fiberglass reinforced plastic grating, and specialty chemicals. Consumer brands include Zinsser, Rust-Oleum, DAP, Varathane, and Testors. These products include rust-preventative and small project paints, coatings, caulks, sealants, and adhesives.

RPM Global Manufacturing Footprint

116 manufacturing locations in 26 countries

Major Segments

- Consumer
- Industrial
- Specialty

Coating Segment Sales

- North America counts for 87% of coatings sales.
- Ranked #4 by Paint & Coatings Magazine in its 14th annual list of global paint companies.

Percent of Net Sales

The Value of 168

The Value of 168 is the corporate philosophy of RPM. This figure, often cited by our founder, Frank C. Sullivan, literally represents the number of hours in a week. On a deeper level, it serves to remind us of his belief that we are born with two great gifts: life and the time to do something with it. The Value of 168 signifies RPM's enduring commitment to our fellow employees, customers, and stockholders.
